Reasoning Ability

Directions (Q. 1-5): Read each statement carefully and answer the following questions:

- Which of the following expressions will be true if the expression $R > O = A > S < T$ is definitely true?
1) $O > T$ 2) $S < R$ 3) $T > A$
4) $S = O$ 5) $T < R$
- Which of the following symbols should replace the question mark (?) in the given expression in order to make the expressions $P > A$ as well as $T \leq L$ definitely true?
 $P > L ? A \geq N = T$
1) \leq 2) $>$ 3) $<$
4) \geq 5) Either \leq or $<$
- Which of the following symbols should be placed in the blank spaces respectively (in the same order from left to right) in order to complete the given expression in such a manner that makes the expressions $B > N$ as well as $D \leq L$ definitely true?
 $B _ L _ O _ N _ D$
1) $=, =, \geq, \geq$ 2) $>, \geq, =, >$ 3) $>, <, =, \leq$
4) $>, =, =, \geq$ 5) $>, =, \geq, >$
- Which of the following should be placed in the blank spaces respectively (in the same order from left to right) in order to complete the given expression in such a manner that makes the expression $A < P$ definitely false?
 $_ \leq _ < _ > _$
1) L, N, P, A 2) L, A, P, N 3) A, L, P, N
4) N, A, P, L 5) P, N, A, L

5. Which of the following symbols should be placed in the blank spaces respectively (in the same order from left to right) in order to complete the given expression in such a manner that makes the expression $F > N$ and $U > D$ definitely false?

F__O__U__N__D

- 1) $<, <, >, =$ 2) $<, =, =, >$ 3) $<, =, =, <$
4) $\geq, =, =, \geq$ 5) $>, >, =, <$

Directions (Q. 6 - 10): Study the following information and answer the following questions:

A, B, C, D, E, G, and I are seven friends who study in three different standards, namely 5th, 6th, and 7th, such that not less than two friends study in the same standard. Each friend has a different favourite subject, namely History, Civics, English, Marathi, Hindi, Maths and Economics also but not necessarily in the same order.

A likes Maths and studies in the 5th standard with only one other friend who likes Marathi. I studies with two other friends. Both the friends who study with I like languages (here languages include only Hindi, Marathi and English). D studies in the 6th standard with only one person and does not like Civics. E studies with only one friend. The one who likes History does not study in the 5th or 6th standard. E does not like languages. C does not like English, Hindi or Civics.

6. Which combination represents E's favourite subject and the standard in which he studies?
- 1) Civics and 7th 2) Economics and 5th 3) Civics and 6th
4) History and 7th 5) Economics and 7th
7. Which of the following is I's favourite subject?
- 1) History 2) Civics 3) Marathi
4) Either English or Marathi 5) Either English or Hindi
8. Who among the following studies in the 7th standard?
- 1) G 2) C 3) E
4) D 5) Either D or B
9. Which of the following combinations is definitely correct?
- 1) I and Hindi 2) G and English 3) C and Marathi
4) B and Hindi 5) E and Economics

10. Which of the following subjects does G like?

- | | |
|-------------------------------|----------------------------|
| 1) Either Maths or Marathi | 2) Either Hindi or English |

- 21.** What should come in place of question mark to establish that J is brother of T in the expression?

$J \div P \% H ? T \% L$

- 1) \times 2) \div 3) $\$$
4) Either \div or \times 5) Either $+$ or \div

- 22.** Which of the given expressions indicates that M is daughter of D?

- 1) $L \% R \$ D + T \times M$ 2) $L + R \$ D + M \times T$
3) $L \% R \% D + T \div M$ 4) $D + L \$ R + M \times T$
5) $L \$ D \div R \% M \div T$

- 23.** Which of the following options is true if the expression

' $I + T \% J \times L \div K$ ' is definitely true?

- 1) L is daughter of T 2) K is son-in-law of I
3) I is grandmother of L 4) T is father of J 5) J is brother of L

- 24.** Which of the following expressions is true if Y is son of X is definitely false?

- 1) $W \% L \times T \times Y \div X$ 2) $W + L \times T \times Y \div X$
3) $X + L \times T \times Y \div W$ 4) $W \$ X + L + Y + T$
5) $W \% X + T \times Y \div L$

- 25.** What should come in place of question mark to establish that T is sister-in-law of Q in the expression?

$R \% T \times P ? Q + V$

- 1) \div 2) $\%$ 3) \times
4) $\$$ 5) Either $\$$ or \times

Directions (Q. 26 - 30): Study the following information and answer the questions given below:

Eight people - E, F, G, H, J, K, L and M - are sitting around a circular table, facing the centre. Each of them is of a different profession - Chartered Accountant, Columnist, Doctor, Engineer, Financial Analyst, Lawyer, Professor and Scientist, but not necessarily in the same order. Directions (Q. 151-160): Read the following passage carefully and answer the questions given below it. Certain words have been printed in bold to help you locate them while answering some of the questions.

Financial Inclusion (FI) is an emerging priority for banks that have nowhere else to go to achieve business growth. The viability of FI Business is under Question, because while banks and their delivery partners continue to make investments, they haven't seen commensurate returns. In markets like India, most programmes are focussed on customer on boarding, an expensive process which people often find difficult to afford, involving issuance of smart cards to the customers. However, large-scale customer acquisition hasn't translated into large-scale business, with many accounts lying **dormant** and therefore yielding no return on the bank's investment. For the same reason. Business Correspondent Agents, who **constitute** the primary channel for financial inclusion, are unable to pursue their activity as a full-time job. One major reason for this state of events is that the customer on-boarding process is often **delayed** after the submission of documents (required to validate the details of the concerned applicant) by the applicant and might take as long as two weeks. By this time initial enthusiasm of applicants fades away. Moreover, the delivery partners don't have the knowledge and skill to propose anything other than the most basic financial products to the customer and hence do not serve their banks' goal to expanding the offering in unbanked markets.

Contrary to popular perception, the inclusion segment is not a singular impoverished, undifferentiated mass and it is important to navigate its diversity to identify the right target customers for various programmes. Rural markets do have their share of rich people who do not use banking services simply because they are inconvenient to access or have low perceived value. At the same time, urban markets, despite a high branch density, have **multitude** of low wage earners outside the financial net. Moreover, the branch timings of banks rarely coincide with the off-work hours of the labour class.

Creating affordability is crucial in tapping the unbanked market. No doubt pricing is a tool, but banks also need to be innovative in right-sizing their proposition to convince customers that they can derive big value even from small amounts. One way 'of' doing this is to show the target audience that a bank account is actually a lifestyle enabler, a convenient and safe means to send money to family or make a variety of purchases. Once banks succeed in hooking customers with this value proposition they must sustain their interest by introducing a simple and intuitive user application, **ubiquitous** access over mobile and other touch points, and adopting a banking mechanism which is not only secure but also reassuring to the customer. Technology is the most important element of financial inclusion strategy and an enabler of all others. The choice of technology is therefore a crucial decision, which could make or mar the agenda. Of the various selection criteria, cost is perhaps the most important. This certainly does not mean buying the cheapest package, but rather choosing that solution which by scaling transactions to huge volumes reduces per unit operating cost. An optimal mix of these strategies would no doubt offer an innovative means of expansion in the unbanked market.

151. Which of the following facts is **true** as per the passage?

- 1) People from rural areas have high perceived value of banking services.
- 2) Cost is not a valid Criterion for technological package selection for financial inclusion initiatives.
- 3) The inclusion segment is a singular impoverished, undifferentiated mass.
- 4) The branch timings of banks generally do not coincide with the off-work hours of the labour class in urban markets.
- 5) All the given statements are true.

152. According to the passage, for which of the following reasons do the delivery partners fail to serve their bank's goal to expand in the unbanked markets?

- (A) They do not have adequate client base to sell their financial products.
- (B) They do not have adequate knowledge and skills to explain anything beyond basic financial products to the customers.
- (C) They do not have the skills to operate advanced technological aids that are a prerequisite to tap the unbanked market.

- 1) Only (B)
- 2) Only (C)
- 3) All (A), (B) & (C)
- 4) Only (A)
- 5) Both (B) and (C)

153. According to the passage, for which of the following reasons is the viability of financial inclusion under question?

- 1) Banks always prefer the cheapest package (to cut cost) while making a choice of technology to be used.
- 2) The Business Correspondent Agents are highly demotivated to pursue their activity as a full-time job.
- 3) The investments made by banks and their delivery partners are not yielding equal amounts of returns.
- 4) Banks do not have adequate number of delivery partners required to tap the unbanked market.
- 5) Banks do not have adequate manpower to explore the diversity of the unbanked market and thereby identify the right target customers for various programmes.

154. In the passage, the author has specified which of the following characteristics of the customer on-boarding process?

- 1) It involves collection of documents from the applicants in order to validate their details.
- 2) It involves issuance of smart cards to the customers.
- 3) It suffers from latency as it takes a long time after submission of documents by the customer.
- 4) It is an expensive process which people find difficult to afford.
- 5) All of the given characteristics have been specified

155. What did the author try to highlight in the passage?

Directions (Q. 161-170): Read the following passage carefully and answer the questions given below it. Certain words have been printed in bold to help you locate them while answering some of the questions.

The evolution of Bring your Own Device (BYOD) trend has been as profound as it has been rapid. It represents the more visible sign that the boundaries between personal life and work life are blurring. The 9 am - 5 pm model of working solely from office has become archaic and increasingly people are working extended hours from a range of locations. At the very heart of this evolution is the ability to access enterprise networks from anywhere and anytime. The concept of cloud computing serves effectively to extend the office out of office. The much **heralded** benefit of BYOD is greater productivity. However, recent research has suggested that this is the greatest myth of BYOD and the reality is that BYOD in practice poses new challenges that may **outweigh** the benefits. A worldwide survey commissioned by Fortinet chose to look at attitudes towards BYOD and security from the user's point of view instead of the IT Managers'. Specifically the survey was conducted in 15 territories on a group

of graduate employees in their early twenties because they represent the first generation to enter the workplace with an expectation of own device use. Moreover, they also represent tomorrow's influencers and decision makers. The survey findings reveal that for financial organisations, the decision to **embrace** BYOD is extremely dangerous. Larger organisations will have mature IT strategies and policies in place. But what about smaller financial business? They might not have such well developed strategies to protect confidential data.

Crucially, within younger employee group, 55% of the people share an expectation that they should be allowed to use their own devices in the workplace or for work purposes. With this expectation comes the very real risk that employees may consider contravening company policy banning the use of own devices. The threats posed by this level of **subversion** cannot be overstated. The survey casts doubt on the idea of BYOD leading to greater productivity by revealing the real reason people want to use their own devices. Only 26% of people in this age group cite efficiency as the reason they want to use their own devices, while 63% admit that the main reason is so they have access to their favourite applications. But with personal applications so close to hand the risks to the business must surely include distraction and time wasting. To support this assumption 46% of people polled acknowledged time wasting as the greatest threat to the organisation, while 42% citing greater exposure to theft or loss of confidential data. Clearly, from a user perspective there is great deal of contradiction surrounding BYOD and there exists an undercurrent of selfishness where users expect to use their own devices, but mostly for personal interest. They recognise the risks to the organisation but are adamant that those risks are worth taking.

161. According to the passage, for which of the following reasons did Fortinet conducts the survey on a group of graduate employees in their early twenties?

- (A) As this group represents the future decision makers.
- (B) As this group represents the first generation who entered the workforce with a better understanding of sophisticated gadgets.
- (C) As this group represents the first generation to enter the workplace expecting that they can use their own devices for work purpose.

- 1) All (A), (B) and (c) 2) Only (C) 3) Both (A) and (C)
- 4) Only (A) 5) Only (B)

162. Which of the following is not true BYOD?

- 1) BYOD enables employees to access enterprise network from anywhere and anytime.
- 2) Due to evolution of BYOD trend the 9 am- 5 pm model of working solely from office has become outdated.
- 3) Recent research has confirmed that BYOD boosts organisational productivity.
- 4) The concept of cloud computing facilitates the BYOD trend.
- 5) All the given facts are true

163. According to the passage, why would the decision to embrace BYOD prove dangerous to smaller financial businesses?

- 1) Their employers have poor knowledge about their devices, which in turn poses a threat the confidential data of the organisation.
- 2) Their employees are more vulnerable to misplacement of devices.
- 3) They may lack mature IT strategies and policies required to protect confidential data.
- 4) They cannot afford to deal with damage liability issues of employee-owned devices.
- 5) Their employees have a tendency to change jobs frequently.

164. According to the passage, the expectation of Younger employees that they should be allowed to use their own devices in the workplace, entails which of the following risks?

- A) Younger employees may deliberately transfer confidential data of their companies to rivals if they are not allowed to use their own devices for work purpose.
- B) Younger employees may strongly feel like leaving the company if it prevents usage of their own device and join some other company that does not have such stringent policies.
- C) Younger employees may consider flouting company policy prohibiting usage of their own devices in the workplace or for work purposes.

- 1) Only (C)
- 2) Only (B)
- 3) Both (A), (C)
- 4) Only (A)
- 5) All (A), (B) and (C)

165. According to the findings of the survey conducted by Fortinet, why do majority of employees prefer using their own devices for work purpose?

- 1) As they often find that the devices provided by the company lack quality.
- 2) As they have access to their favourite applications while working
- 3) As majority of them believe that output doubles when they use their own devices for work purpose
- 4) As handling data from their own devices reinforces their sense of responsibility
- 5) As it helps them create a brand of their own

166. What is/are the author's main objective(s) in writing the passage?

- (A) To break the myth that BYOD promotes employee efficiency and organisational productivity
- (B) To suggest ways to control subversion across levels of corporate chain of command
- (C) To throw light upon the fact that employees, even after knowing the risks involved, prefer to use their own devices for work purpose, mostly for personal benefits

- 1) Both (A) and (C)
- 2) All (A), (B) and (C)
- 3) Only (C)
- 4) Only (A)
- 5) Only (B)
